

Invitation to exhibit at NORDIWA 2023, 5–7 September

In early September 2023 in the beautiful city of Göteborg, professionals and experts in wastewater management, urban drainage and climate adaptation in the Nordic region will meet for the Nordic Wastewater Conference (NORDIWA).

As an exhibitor, this provides ample opportunities to showcase your brand and meet with stakeholders within the aforementioned fields.

Lasting three days, NORDIWA represents an opportunity for the industry to meet, exchange ideas and learn from each other's experiences and practices. Alongside the conference program, an exhibition will be held which we invite you to participate in. A designated exhibition area at the heart of the conference space where all lunches and coffee breaks will be hosted provides plenty of networking opportunities involving conference attendees and industry colleagues.

Additionally, the carefully crafted social program offers the chance to further establish connections.

NORDIWA, now in its eighteenth reiteration, is arranged by the Nordic water and wastewater associations DANVA, FIWA, Norsk Vann, Samorka and Svenskt Vatten. We are proud to welcome you to the Swedish West coast and the conference venue Elite Park Avenue Hotel, located on the fashionable street Avenyn, Göteborg.

How to register - click here
